

The Wood County Historical Center & Museum

Presents

Ohio Inventors and Innovators: From Light to Flight

Edward Libbey, B.F. Goodrich, Alexander Winton, John D. Rockefeller, Samuel Gompers, Thomas Edison,
Charles Brush, Granville Woods, Wright Brothers, Charles Kettering, Garrett Morgan

Ohio Inventors and Innovators: From Light to Flight is a new educational program offered by the Wood County Museum. This program is a 30-40 minute power point program that highlights 11 of Ohio's inventors. From Alexander Winton to Samuel Gompers, from Granville Woods to Garrett Morgan, this program covers what is in the state curriculum. This program is NOT an in-depth lesson on each inventor, rather, it is an overview of them all. This program would be ideal to introduce students to all of these famous men OR review what you have already taught.

FEE: .50 cents per student and a \$15 donation to the museum.

If you would like this program presented in your classroom please contact
Education Programs Coordinator,

Michael McMaster
